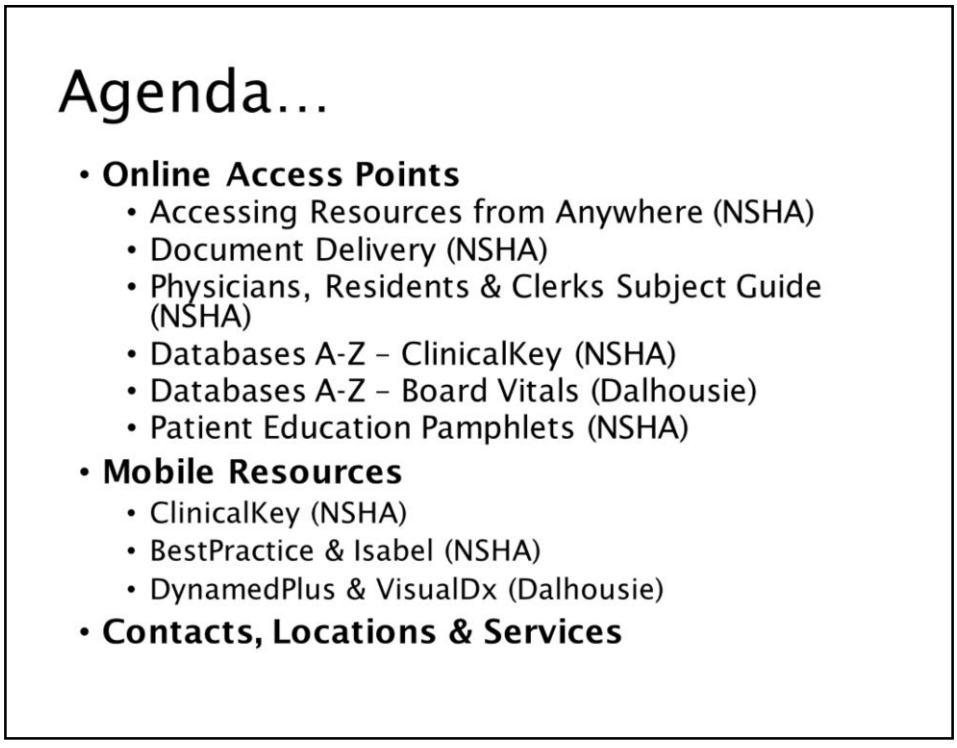
DALHOUSIE
UNIVERSITY

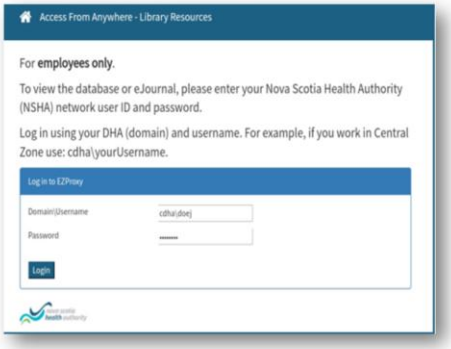


At the end of our orientation slide deck, you'll know more about how to find us, access our resources and request our services.

Access Our
Resources &
Services

Start at Library Service's homepage: **https://library.nshealth.ca/**

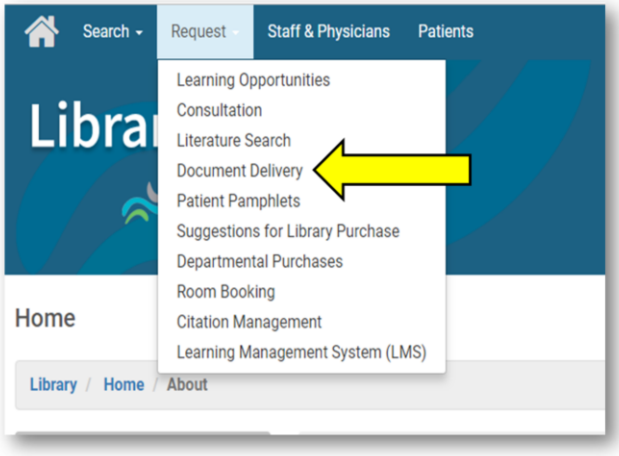
Access From Anywhere (Remote Access)



- Use the same username/password to log in to networked computers or Outlook webmail (active directory)
- Important to start at the library's website so you can see and search all of the great content we pay for!

It is important to start at the library's website and access points to ensure you are accessing and searching all of our paid content. When you are not on the NSHA network this login screen will appear before sending you to the resource to make sure you get all the great content we pay for. Simply fill in your info and you have access to resources on your phone, iPad and more!

Document Delivery



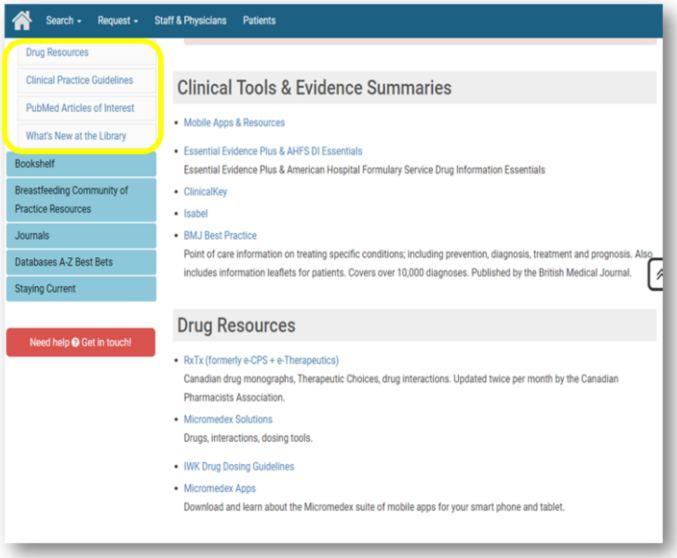
Looking to access the full-text of a particular article?

We have you covered. Simply scroll down to the 'Document Delivery' option, under the top left 'Request' tab. Fill out the form and Library Services will do our best to retrieve the article for you.

Request the full PDF copy of an article and we will do our best to find it for you. Fill in the form and the article (s) will be emailed to you.

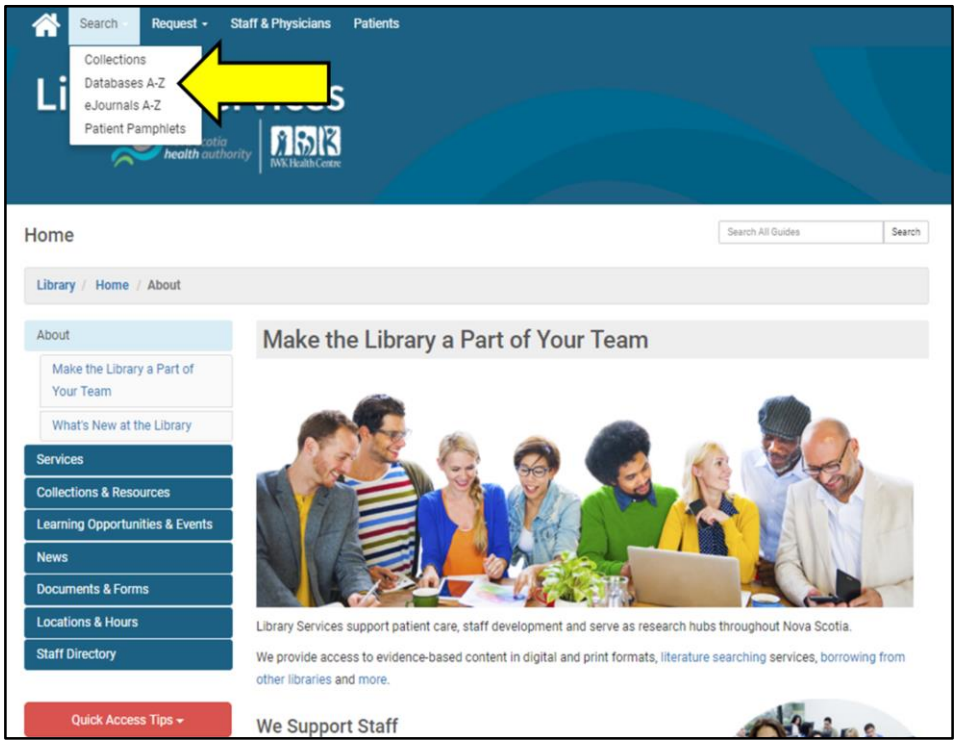
Subject Guide

https://library.nshealth.ca/PhysiciansResidentsClerks

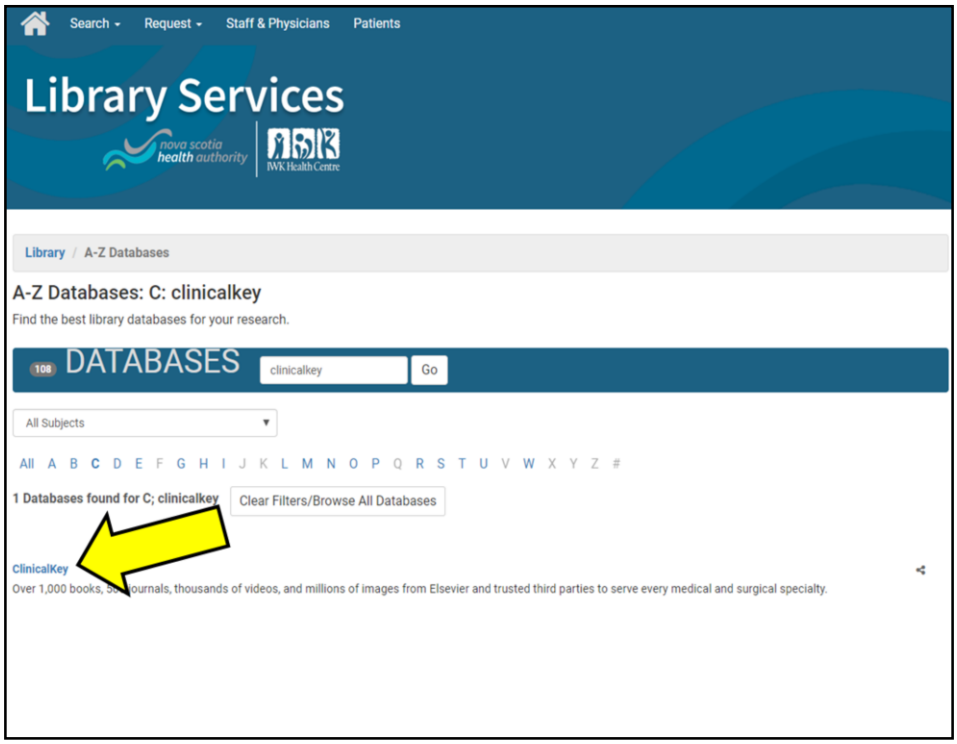


- **Clinical Tools and Evidence Summaries**
- **Drug Resources**
- **Clinical Practice Guidelines**
- **Relevant e-Books, e-Journals and databases**

One-stop-shop for all of your resources. This guide is a great starting point for residents. Be sure to check it out by entering the URL into the search bar or navigating to the 'Staff and Physicians' tab on the top navigation bar and scrolling down to 'Physicians, Residents & Clerks'.

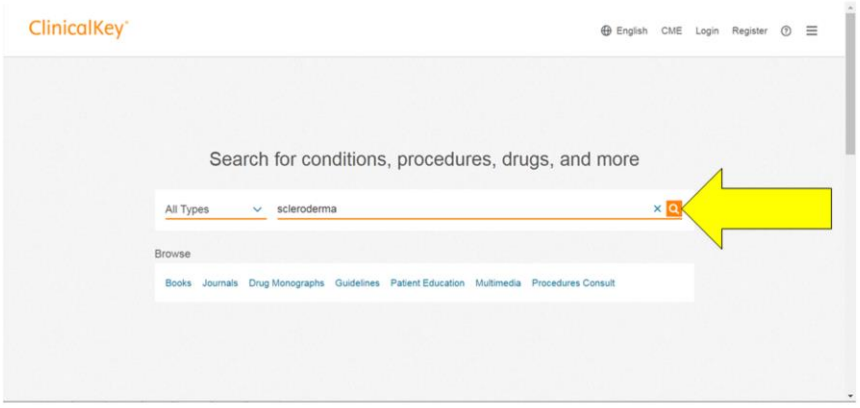


Our database page gives you access to over 100 databases. Find the database page as seen above.



ClinicalKey is accessible through our database page. On the database page, navigate to 'C' and scroll down to CliniclaKey.

Enter Search Term(s)



Enter your search terms in the search box.

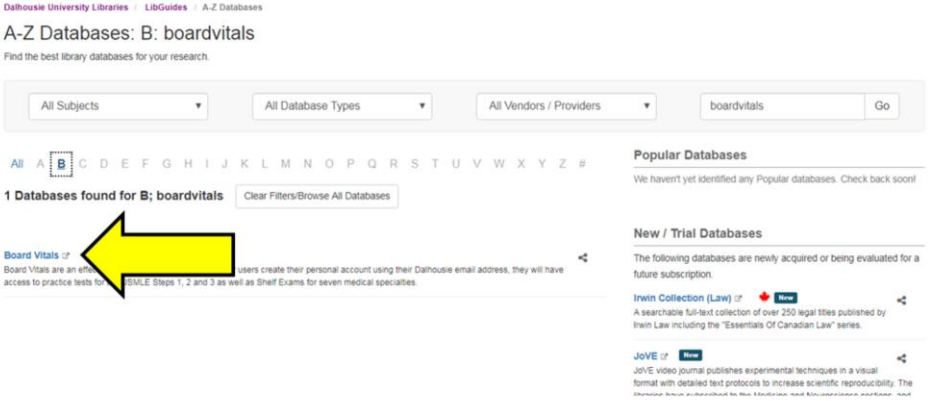
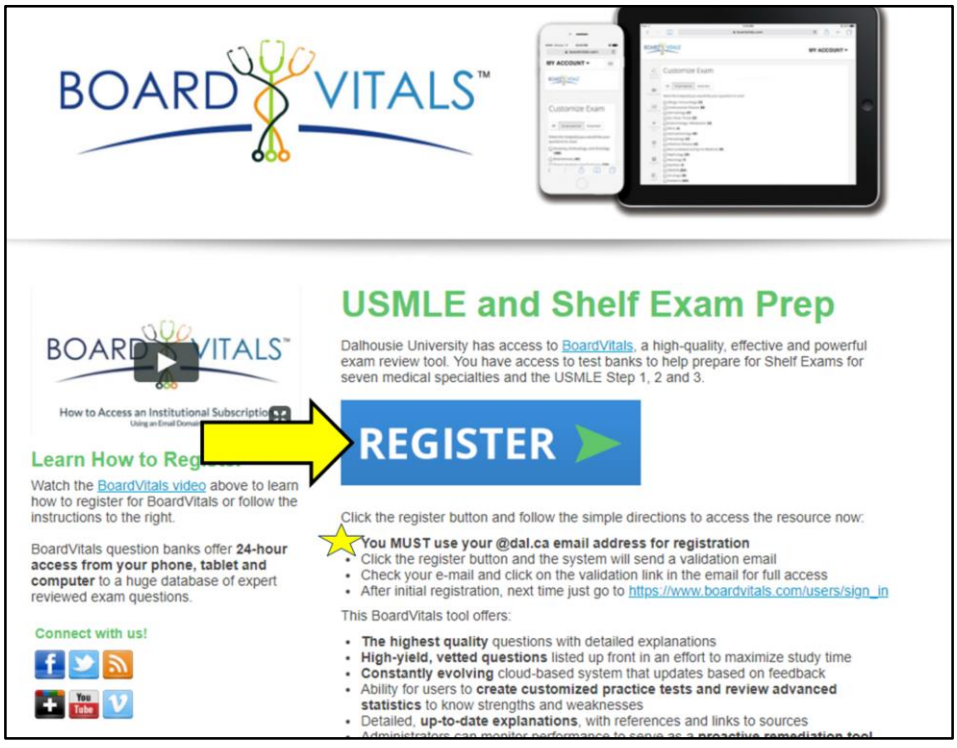
Board Vitals

DALHOUSIE UNIVERSITY 1818 2018

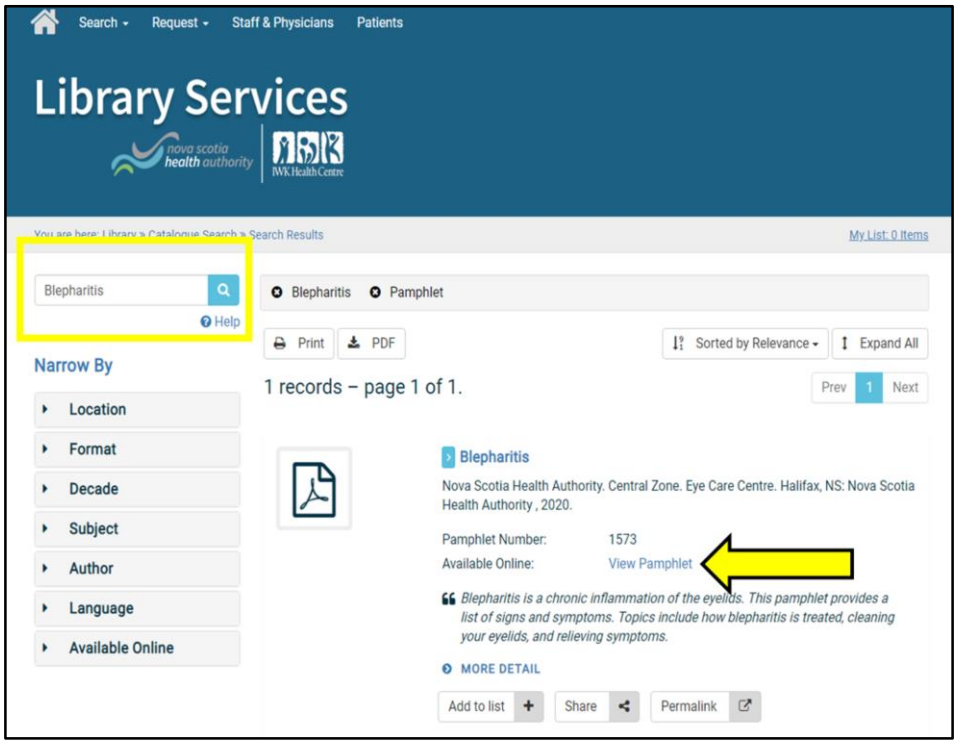
http://dal.ca.libguides.com/az.php





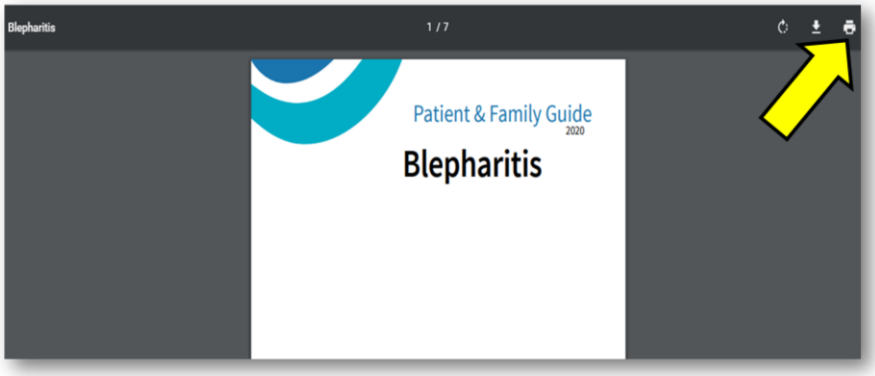
BOARD VITALS™
USMLE and Shelf Exam Prep
Dalhousie University has access to BoardVitals, a high-quality, effective and powerful exam review tool. You have access to test banks to help prepare for Shelf Exams for seven medical specialties and the USMLE Step 1, 2 and 3.
REGISTER
Learn How to Reg
Watch the BoardVitals video above to learn how to register for BoardVitals or follow the instructions to the right.
BoardVitals question banks offer 24-hour access from your phone, tablet and computer to a huge database of expert reviewed exam questions.
Connect with us!
Click the register button and follow the simple directions to access the resource now:
You MUST use your @dal.ca email address for registration
Click the register button and the system will send a validation email
Check your e-mail and click on the validation link in the email for full access
After initial registration, next time just go to https://www.boardvitals.com/users/sign_in
This BoardVitals tool offers:
The highest quality questions with detailed explanations
High-yield, vetted questions listed up front in an effort to maximize study time
Constantly evolving cloud-based system that updates based on feedback
Ability for users to create customized practice tests and review advanced statistics to know strengths and weaknesses
Detailed, up-to-date explanations, with references and links to sources

Access patient pamphlets through the 'Search' tab, as seen above.



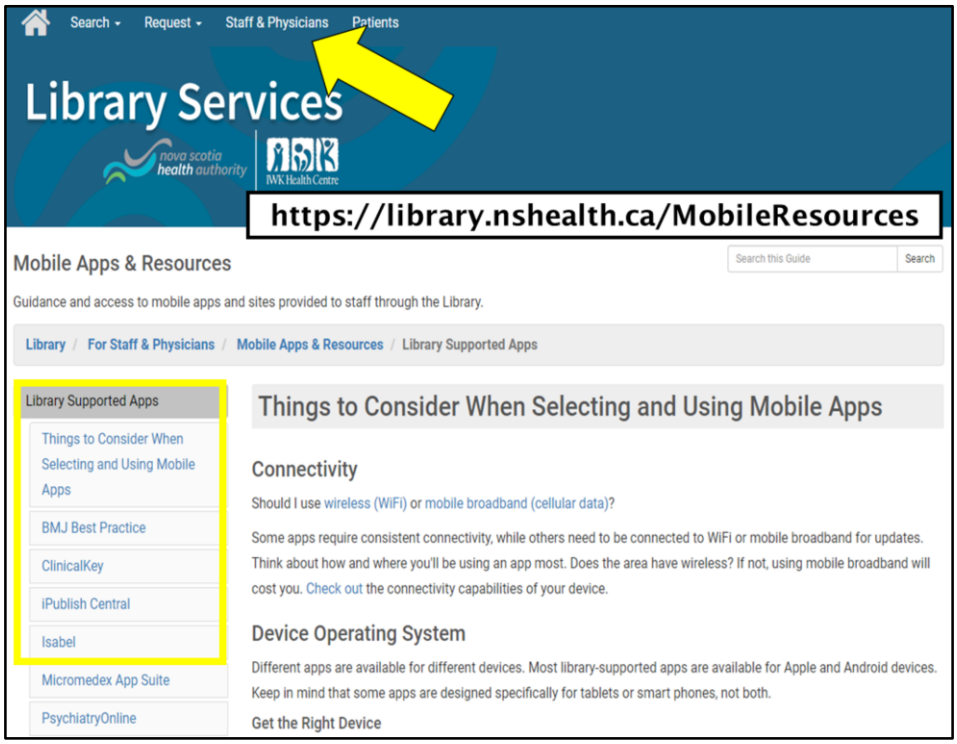
Search your topic. Pamphlet record is generated. Select 'View Pamphlet' to access the PDF copy of pamphlet.

Read Online or Print



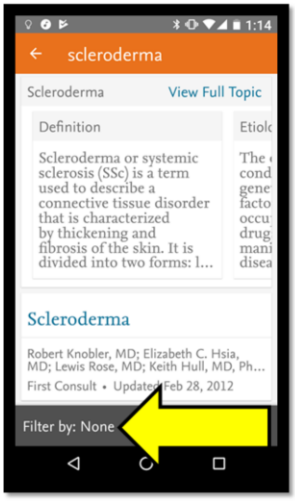
After selecting ‘View Pamphlet’ you have the option to read online or print the pamphlet.

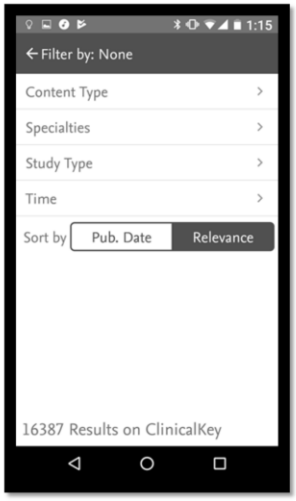
Mobile
Resources



Find our Mobile Apps page by either navigating to **https://library.nshealth.ca/MobileResources** or under the 'Staff & Physicians' tab, scroll down to 'Mobile Apps & Resources.' All apps are listed to the left of the screen.

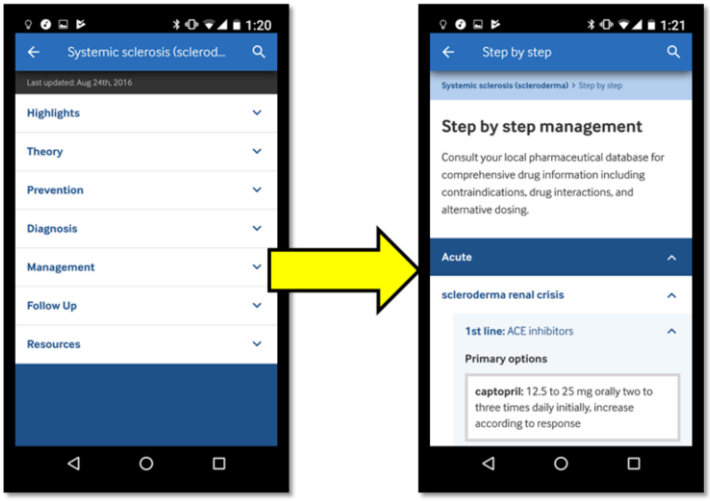
ClinicalKey (NSHA - App)





Point-of-care reference tool that searches over 1,000 books, 500 journals, thousands of videos, and millions of images. Find information on rare cases and earn CME credits on the go. ClinicalKey draws relevant answers from continuously updated, trusted content and multimedia across medical specialties. Find **download instructions** on the 'Mobile Apps' page under 'ClinicalKey.'

BMJ Best Practice (NSHA - App)



Have confidence in your clinical decisions. Check guidelines and evidence, consult expert opinion, brush up on rare conditions, and confirm that you are taking the correct course of action.

The BMJ Best Practice app is your instant second opinion, whenever and wherever you need it.

Find **download instructions** on the 'Mobile Apps' page under 'BMJ Best Practice.'

Isabel is a support tool for diagnostic decision-making. Enter symptoms and clinical features for a rapid list of possible diagnoses, as well as guidelines and protocols, and access to related information from textbooks, journals, and internet resources. Covers over 6,000 diseases and 4,000 drugs in all specialties.
Find **download instructions** on the 'Mobile Apps' page under 'Isabel.' Note login info: **Username:** 38753, **Password:** isabel14.

Other Apps
CDC Mobile App
The free CDC Mobile app features health articles, disease of the week, popular journals, updates and access to social media. If you go to this website, CDC also offers a number of other apps including Solve the Outbreak App, Influenza Applications for Clinicians and Healthcare Professionals, the Morbidity and Mortality Weekly Report App and many more.
The National Library of Medicine
NLM provides numerous apps (e.g. Embryo, Reunite, Health Hotlines, Wireless Systems for Emergency Responders, etc.) and mobile websites (e.g. Daily Med, TOXNET Mobile, HazMap Mobile, etc.).
Neurology as an Artform
Library Resource Apps
Dynamed Plus
Use the above link to access the DynaMed home page. Click "Sign up for remote access" link on the home screen. DynaMed will then walk you through the account creation process. Then, download the app from your device's app store, and log in using your newly created account.
VisualDx
To get the mobile app, you must register with VisualDX (see "Get the Mobile App" on the main VisualDx page). You can then create a personal account. Visit your device's app store to download VisualDx, then log in with your newly created account.
STATRef
Further instructions for downloading the app are available here.
Micromedex
Please note: the code for accessing the mobile Micromedex app is changed every 4 months. The code is provided with the downloading instructions. Find the downloading instructions by clicking "Download Mobile Apps" on the home page.
Cochrane Library iPad app
This free iPad app is available for download through the iTunes store. Users get free access to monthly abridged editions of Cochrane Systematic Reviews. There is additional multimedia content, like podcasts, videos, and slides. You can also create your own reading lists.
EBSCOhost Mobile
Mobile website includes CINAHL, PsycINFO, and SPORTDiscus. Also available in app format: instructions for downloading the app can be found here.
RxTx (Mobile)
To register, click the link above. You will have to enter your NetID and password. Once you have logged in you will be able to see our organization code and registration instructions. Once you have registered, you can go to the Apple/Google Play App Store from your smartphone/tablet and search for RxTx Mobile. Once installed, enter your email address and the password created during registration. This step is only required the first time the app is opened.
BMJ Best Practice
The BMJ Best Practice companion app is available as part of your BMJ Best Practice access. All users must register for a "personal account" on the BMJ Best Practice website. These login details can then be used to download the app content from the App Store or Google Play.
Mobile Friendly Websites
EBSCOhost Mobile
Mobile website includes CINAHL, PsycINFO, and SPORTDiscus. Also available in app format: instructions for downloading the app can be found here.
