Quick Response Program

Department of Emergency Medicine

You are now a patient of the Quick Response Program at Capital Health. This is a home care program developed by Continuing Care, a branch of the Nova Scotia Department of Health.

Services have been put in your home for no more than 5 days to make sure you are being cared for while you are ill. This will, hopefully, mean you will not need to be admitted to hospital.

Your care coordinator works Monday to Friday 8:30 a.m.-4:30 p.m., except on holidays. The care coordinator will re-assess your need for care and will increase or decrease your home care services as your health care needs change. If you need to, you may call Continuing Care at 1-800-225-7225 between 8:30 a.m.-4:30 p.m. (every day including holidays). If you do not get better, or you feel worse with treatment in your home, contact your family doctor or return to the Emergency Department.

Reminders

Services have been arranged in your home:

Nursing services

Date

Times:

Day 1 _____

Day 2 _____

Day 3 _____

Day 4 _____

Day 5 _____

Home support services
