

Pathology and Laboratory Medicine Memorandum

To: Nova Scotia Health Physicians and Laboratories
From: Dr. E. Filter – Cytology Section Head, Division of Anatomical Pathology
Colleen Caines – Manager, Division of Anatomical Pathology
Date: April 12th, 2016
Subject: New Gynecological Cytology and Non-Gynecological Cytology Requisition

The QEII Cytopathology Laboratory has created a new double-sided requisition to include both Gynecological and Non-Gynecological Cytology requests. The requisition has been revised to:

- To improve its clarity for our end users.
- Allow clinicians to check off specimen types and relevant clinical history.
- Assist the laboratory in streamlining the specimen accessioning process.
- Facilitate appropriate case prioritization.

The new requisition is now available from the print shop by calling (902)494-6428, print number **CD1840**. Please discard all old versions of the requisitions.

Please contact Colleen Caines at (902)-473-7702 should you have any questions or concerns.
