

Research Education: Building Research Capacity

What's in a Name? Pilot Studies

About Building Research Capacity Education Talks

- This series is intended for junior researchers or for those who want a refresher.
- The purpose is to develop research skills and create opportunities for linkages and partnerships.
- The topics are diverse, to meet a broad range of interests and needs.
- Attendees will learn from experienced, established researchers.

Date, Time and Location

- Wednesday, Sept. 9, 2015
- noon to 1 p.m.
- RMU Multimedia Conference Room, Centre for Clinical Research
Room 114, 5790 University Avenue, Halifax, NS

Topic:

What's in a Name? Pilot Studies

This session will provide an overview of pilot studies, how they differ from 'regular' studies and how to approach writing a proposal for a pilot study.

Speaker:

Dr. Jennifer Payne

Dr. Jennifer Payne is a PhD-trained epidemiologist working collaboratively with the NS Breast Screening Program and the Dalhousie Dept of Diagnostic Radiology. Her research interests range from population health to health services research. Methodologically, she has focused on the use of existing databases to carry out her work. Her work also involves a large component of research transfer and communication with external stakeholders..

Registration Required
