

# Zoom for Healthcare

## Book and Registration Instructions

---

- **BOOKED VISITS**

- Previously booked visits in your patient scheduling system (CWS or PHS): Register to the codes assigned in the booking. **These are not required to change to a virtual care appointment or registration at this time.**
- New visits created effective today until regularly scheduled ambulatory visits resume (*COVID restrictions remain no longer in effect*): Book and register the visit using a virtual care appointment/procedure type for ambulatory clinics/programs where they exist.
- Clinics/programs that do not have virtual care appointment/procedure types, book and register the patient contact as you would if the patient was being seen in the office. **No need to request new virtual care appointment/procedure types at this time.**

- **NON BOOKED VISITS**

- Register patients as a virtual care visit if you have the virtual care registration option in your existing setup within MEDITECH and/or STAR.
- No existing virtual care codes available for registration in your area, register as you would do if the client was seen in the office. **No need to request new virtual care appointment/procedure types at this time.**
