

Primary Health Care Virtual Care Knowledge Exchange Webinar Series

Through knowledge and experience sharing, the webinar series aims to increase readiness of providers and teams to transition to or use virtual care technologies in their practice, support practice change / improvement, increase awareness of key resources for support, and create connections between providers.

Audience: Primary health care providers, teams and leaders in all practice settings, along all stages of virtual care readiness and experience from pre-contemplative to beginner to those with intermediate experience.

There are no pre-requisites to participation. The webinars are being offered via WebEx, and will be recorded and shared on our [website](#) for future reference.

This Group Learning program has been certified by the College of Family Physicians of Canada and the Nova Scotia Chapter for up to 4.5 Mainpro+ credits. (Excluding Webinar 2a).
