

Insulin Pump Education Day – 501 Embracing New Technologies: Implications for Practice

**November 23, 2018 (7:30 a.m. to 4:00 p.m.)
IWK –Parker Reception Room (Main floor Women’s side)**

By the end of the session attendees will be able to:

- Discuss the use of new/emerging technologies, including Continuous (C) / Flash (F) GM in the clinical care setting.
- Explore/action approaches to use of C/F GM to enhance efficiencies and patient self-care.
- Describe target-setting approaches for consideration in the practice setting.
- Appreciate the impact of the Nova Scotia Insulin Pump Program (NSIPP) on quality of life and support pump candidates through the NSIPP processes.

AGENDA

| | | |
|-------|-----------------------------------------------------------------------------------------------|------------------------------------------------------------------|
